Saharanpur, Uttar Pradesh

EDUCATION

B.Sc Computer Science (2023–2026, Ongoing)

JV Jain College, Saharanpur, Uttar Pradesh

Senior Secondary (12th – CBSE) (2020–2022)

Mother Teresa Public School, Sarsawa, Saharanpur, Uttar Pradesh

TECHNICAL SKILLS

Languages: Python (Pandas, NumPy), SQL

Data Analysis: Data Cleaning, EDA, Statistical Analysis, Feature Engineering

Visualization: Power BI (DAX, Data Modeling), Matplotlib, Seaborn, Excel

Databases: MySQL, MongoDB

Tools: Jupyter Notebook, VS Code, Git/GitHub

PROJECTS

Retail Sales Analysis & Dashboard (Power BI + Python)

Tools: Power BI, Python, Pandas, Excel

- Cleaned and transformed retail sales data (missing values, duplicates, outliers).
- Performed EDA to identify sales trends and top-performing products.
- Built interactive Power BI dashboards with KPIs and slicers.
- Analyzed peak sales periods and region-wise revenue contribution.

Outcome: Improved business visibility and enabled data-backed inventory decisions.

Customer Churn Analysis & Prediction (Python + SQL)

Tools: Python, Pandas, NumPy, Matplotlib, MySQL

- Retrieved and merged customer data using SQL joins and aggregations.
- Identified churn drivers using EDA (behavior, tenure, spending).
- Applied feature engineering to enhance data quality.
- Built visual reports showing churn by age, plan type, and region.

Outcome: Identified key churn drivers to support retention strategy.

COURSES & CERTIFICATIONS

Data Science Training | CodeSquadz (Sept 2025 – Present)

Focus: Advanced Python, Machine Learning, MLOps, Data Preprocessing

Data Analytics Bootcamp | 30days Coding

Focus: Power BI, SQL, Python, Web Scraping, Real-world Projects
